

## Mallacoota Sanctuary Bulletin #2

This week, the Sanctuary youth group talked about film making, opportunities and investments, upcoming funding opportunities and more. We welcomed Chris from Combiobar to our committee, who is an expert in Permaculture, and just an all round awesome woman, said hello to some other committee members via Zoom and got together for another excellent gathering.

Our revamping plans are really taking off! We are well on our way to beginning the redo, with some fairly concrete plans, and some flashy new colours to boot. If you would like to see the plans as were in last week's bulletin, have a look at our website listed below. Again, big thanks to Christy Bryar is in order, for spending so much time listening to our colour choosing shenanigans and helping us pull our dreams to action.

And if you like cleaning walls and removing old mouldy chipboard, shoot us a message!

We've been talking about making a Sanctuary documentary, made by the youth with the help of some local enthusiasts and out-of-town experts. Though it's still in the early stages, the committee has been having fun mucking around with our new camera courtesy of Kristin Rule and coming up with some fun and interesting ideas. We are looking at funding opportunities for this project, and are keen to get started. Last week's session of cameras and messing around during our Thursday dinner and film-crew night went very well, we cannot thank Kristin enough for dealing with us rowdy teenagers.

Ashlee (president/janitor) and Airly (wannabe media mogul/ friend of Ashlee's) have been taking part in some training to get our 'spiel' for the Sanctuary up to date and *possibly* television ready in order to spread our story and successes for other youth organisations to see in the future. This is with the help of the Foundation for Young Australians, who aim to support youth led organisations like us!
